📄 PROFESSIONAL SUMMARY

M.Tech candidate at BITS Pilani with 3+ years at Wipro in IT infrastructure and system engineering. Skilled in Python, Java, C++, and Linux, with expertise in automation, patching, incident response, and data analytics. Solid foundation in DSA, OOP, and cybersecurity; focused on building robust, scalable systems.

🎓 EDUCATION

M.Tech In COMPUTING SYSTEMS & INFRASTRUCTURE, Jul 2023 – present
BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE, PILANI

Bachelor of Computer Application (BCA), Aug 2019 – Jun 2022
Maulana Abul Kalam Azad University of Technology (WBUT)
CGPA - 9.14

Higher Secondary Education (WBCHSE), Mar 2015 – May 2016
Ranaghat Bharati High School
60 %

🧩 INTERNSHIP

Associate Project Manager, TransCurators Mar 2022 – Jun 2022

- Managed task distribution and workflow tracking for a team of content writers to meet deadlines.

📁 PROFESSIONAL EXPERIENCE

Wipro Limited, Domain Expert Jul 2022 – present | INDIA

System Engineer – Client: ICICI Bank (Jul 2023–Present),

- Configured and maintained enterprise-level banking systems in compliance with RBI security and regulatory policies, ensuring system integrity and performance across MacOS/Windows.
- Delivered high-quality IT infrastructure support, resolving **100+ high-priority incidents** via **ServiceNow**, within defined SLAs to maintain **99.99% service uptime**.
- Utilized ServiceNow for incident tracking, change requests, and root cause analysis.

IT Infrastructure Patching Support Engineer – Client: IDFC First Bank (Aug 2022–Jun 2023)

- Managed patching for 500+ **Windows/Linux** servers, ensuring security compliance and minimal downtime.
- Automated reporting and classification tasks through Excel Dashboard, reducing manual effort by 30%.
- Prioritized critical updates through vulnerability assessments and plugin analysis.
- Collaborated with DevOps and change management teams to execute seamless deployments.

📁 ACADEMIC & PERSONAL PROJECTS

Cryptography Key Algorithm (Python) — Academic

- Designed and implemented a **ROT13-based encryption/decryption system** to simulate secure data transmission.
- Integrated secure key access control to mimic real-world cryptographic practices.
- Demonstrated core principles of **confidentiality, encoding logic, and secure message handling**.

Image Steganography Tool (Python) — Academic

- Built a steganography-based application to **conceal encrypted text within image files** using **LSB (Least Significant Bit)** encoding.
- Applied custom Python encryption methods to add a second layer of data protection.
- Strengthened understanding of **cybersecurity, data hiding, and secure communication techniques**.

Keylogger for Awareness (Python) — Personal

- Developed a non-malicious keylogger using **pynput** and **pyautogui** to demonstrate potential threats in user monitoring.
- Included features like **keystroke logging, screenshot capture, and webcam access simulation** for educational use.
- Focused on raising **cybersecurity awareness** around surveillance and ethical hacking scenarios.

SKILLS

Languages — Python, Java, C & C++

Web — HTML & CSS

Database — PostgreSQL, MySQL

Tools — VS Code, Jupyter Notebook, GitHub, ServiceNow

OS & Networking — Windows, MacOS, Linux, System Configuration, Network Configuration

Concepts — Data Structure and Analysis of Algorithm, OOP, DBMS

Soft Skills — Teamwork, Problem-Solving

CERTIFICATIONS

Certificates: Python Basics for Data Science - **IBM**, | The Joy of Computing using Python - NPTEL, | Python Data Structures - University of Michigan, | AI For Everyone - **DeepLearning.AI**, | **Excel Skills for Business: Essentials** - **Macquarie University**, | Introduction to CSS3 and HTML5 - University of Michigan, | Technical Support Fundamentals – **Google**, | Computer Architecture - **Princeton University**

LANGUAGES

BENGALI — Native/Bilingual

ENGLISH — Fluent

HINDI — Proficient
